

THINK like an archaeologist

Create a Family Tree!

Native Americans have lived in what we now call North America for thousands of years. How far back can you trace your history? Do you know if you have Native American ancestors? With the help of your family, create a family tree of your ancestors. Compare your family tree to the timeline on this page.

Ideas:

✂ Use the tool found at <http://www.readwritethink.org/materials/timeline>, or draw your own.
