

# THINK like an archaeologist

## Make Pottery!

---

Build a clay cooking pot based on the pictures below.

Ideas:

- ❖ Mix sand into the clay to temper it and make it stronger.
- ❖ Build the pot by coiling or pinching it into a bowl shape.
- ❖ Decorate the pot by wrapping cord around a wooden spoon and gently paddling the clay.
- ❖ Use a stick or your fingernail to decorate the clay with lines or marks.
